Green Buildings Africa

Dear Bryan

We have noted your email and the allegations contained therein.

Aurecon does not have an agent or referral fee or commission agreement with any installer or contractor.

We implore you to refer your allegations with supporting documentation and evidence to the Green Buildings Council of South Africa for further investigation and appropriate action.

About Aurecon

Aurecon is an engineering and infrastructure advisory company, but not as you know it. We've reimaged engineering.

Our clients' ideas and aspirations drive all that we do. We work alongside them like no other firm to co-create clever, innovative solutions to some of the world's most complex challenges, adding value across the project lifecycle through deep technical and advisory expertise. We serve our clients across a range of markets, in locations worldwide. Hardwired in our DNA are engineering, design and the deep need to leave a legacy. We are as diverse as we are dynamic. As curious as we are clever.

Drawing on our deep pool of knowledge, we bring vital engineering experience, technical capability and design expertise to the table. Then we listen deeply and intently. We see the opportunities, possibilities and potential that others don't. Through a range of unique creative processes and skills, we collaborate with our clients to re-imagine, shape and design a better future.

We believe humanity depends on engineering; and we recognise we have a broader stewardship role to play. A deep responsibility to hold. As we continually strive for a life in balance, Aurecon clients will be both future ready and engineered for life.

Think engineering. Think again.

Aurecon: Engineering, re-imagined.

To find out more about what we have been up to [visit our newsroom](#), or [take a glimpse into the future on our Just Imagine blog](#).

Privately owned by employees, Aurecon formed in 2009 when Africon, Connell Wagner and Ninham Shand [announced the formation of a new global group](#).
